## AKC NATIONAL AGILITY CHAMPIONSHIP – DESCRIPTION & SCORING

The National Agility Championship will consist of:

**Round #1** Standard Class (all dogs).

**Round #2** JWW Class (all dogs).

**Round #3** Hybrid Class (consisting of two contacts; all dogs).

**Round #4** Challengers Class – top four (4) dogs per jump height as noted below from each of Rounds #1 through #3.

**Round #5** Championship Class (Finals) – only the top 7% of all Regular dogs entered and the top 7% of all Preferred dogs entered will move on to the Championship Round. This will be based on overall performance through three rounds of competition, plus a maximum of 1 additional Regular dog and 1 additional Preferred dog per jump height represented by the winner of each jump height from the Challengers class.

A minimum of six (6) dogs in each Regular jump height and a minimum of four (4) dogs in each Preferred jump height will advance to the Finals Round regardless of how many dogs were competing in a jump height.

The Regular and Preferred classes will have their own separate set of dogs go to both the Challengers and Championship classes.

AKC Agility Master rules will apply with the following exceptions:

- Course faults: A Refusal, runout, wrong course, missed contact, and dropped bar will result in a 5 point deduction. Not completing or skipping an obstacle will be signaled with a short whistle (you may still complete the rest of the course) and will result in a score of zero. Course time deductions = 3-point deduction for every second over course time truncating down to whole numbers.
- All obstacles must be completed or a score of zero will be assessed.
- Fault limits may be imposed by the Trial Committee based on entries. If a dog reaches the announced fault limit, the round would be scored as a zero.
- Obstacles required by class level may be altered for this event.

**Note:** Scores awarded at the Championship do not count as credit towards any AKC Agility titles. Scores for each run will be based on a possible 100 points total. Scores from the first three semi-final rounds will be combined for a maximum total score of 300 points.

### **ROUND 3 – HYBRID CLASS**

Standard Course times will be set between Standard class course times and JWW class course times based on the equipment used.

### **ROUND 4 – CHALLENGERS CLASS**

This class is open to the top 4 dogs within each jump height from Rounds 1, 2 and 3 that have not already gained placement into the finals, providing they scored 100 in that round AND have two clean rounds out of the three rounds. Each of the three rounds is reviewed independently. The dog that wins the Challengers Class (in each jump height) will gain entry into the Finals, provided their score in the Challengers class is a 100.

*Example: If dogs 1–4 from Round 1 are in the Finals, then the next 4 dogs in that Round are eligible for the Challengers Class (provided they had scores of 100 in Round 1 and two clean rounds within Round 1, 2 and 3).*

### **ROUND 5 – CHAMPIONSHIP CLASS**

Dogs will be run in reverse order based on placements through 3 rounds of competition. The run order placement of the Challengers Class winner will be randomly drawn for the Finals but, in no case, shall they be the last dog to run. This will be a Standard Agility course and Finalists placements will be based on score, then time, from this class only. A score of 100 is required during the Finals round in order to be awarded the NAC/PNAC title. All dogs placing must have received a time and score.

**Dress code for Round 5 Championship Class – Exhibitors are asked to wear BLACK pants or shorts for Round 5 of competition and a Finalist shirt will be provided by AKC.**

**CRATING SPACES**

Each exhibitor will be required to display an information card on the outside of each crate. The information card must have your name and emergency contact information (cell phone# or other).

**All dogs in the crating sections must be housed in a crate, which must have sides, a top, and a bottom, all parts being inter-connected, thus preventing the dog from being able to escape the enclosure even if knocked over.**

**The top and/or bottom of the "crate" may be not be secured only by Velcro or a Velcro-like product. There must be additional fasteners that will prevent both the top and bottom from coming off and will not allow the dog to escape the enclosure.**

**Un-entered dogs will only be allowed in the facility if they can fit in the crating area of an entered dog; either in the same crate or stacked on top of an entered dog.**

**No Ex-Pens will be allowed in crating area. (Un-entered dogs and ex-pens are allowed in rented stalls.)**

**STALL RENTALS**

The stall rental agreement will be posted online after entries close at [www.akc.org/nac](http://www.akc.org/nac)  
All exhibitors will be notified by an email blast when the stall rental form becomes available.

A dog may only be housed either in a stall or a rented stall. Day of show crating will be provided for those renting a stall.

An exhibitor must indicate at time of entry whether he/she plans to house their entered dog either a) in a rented stall, or b) in general crating. This is simply to get an estimated count of how many crating spaces will be needed.

This answer is not binding! In January, when the stall rental contract becomes available, an exhibitor may rent a stall regardless of how the question was answered when the entry was submitted.
